

25X1A

[redacted]

6 December 1950

General Counsel

25X1A

Acquisition of [redacted] Property

1. The file and the proposed letter for the Director's signature appear to be in good order, but to complete the planning we suggest one further step.

25X1A. I think it is quite clear that we will have to either [redacted] or obtain legislation for non-reimbursable transfer. The choice will depend somewhat on the amount of money involved. If it is a small amount within budgetary capabilities, it would be preferable to avoid legislation. If, however, it would cause serious budgetary difficulties, we can include a request for legislation in our legislative program for presentation to the next session of Congress.

3. If you can get even a rough estimate from GSA, it will be helpful for planning purposes.
